**Re: Dominion Energy South Carolina, Incorporated's application for the approval of new natural gas energy efficiency programs and notice of intent to seek net lost revenue under the Natural Gas Rate Stabilization Act  
Docket No. 2021-\_\_\_-G**

**\*\*\*This filing does not include a request to adjust base rates for natural gas service.**

Dear Ms. Boyd:

Dominion Energy South Carolina, Inc. ("DESC" or "Company") submits this application for the approval of new natural gas energy efficiency programs and notice of intent to seek net lost revenue under the Natural Gas Rate Stabilization Act pursuant to S.C. Code Ann. § 58-37-20, § 58-5-400 *et seq.*, and the Public Service Commission of South Carolina S.C. Code Ann. Regs. 103-819, 103-823. This application does not include a request for a rate increase.

DESC has additionally enclosed for the Commission's consideration a proposed Notice of Filing. As the Commission considers deadlines for DESC to provide the Notice to its customers, please know that the Company is anticipating that it will be required to provide the Notice to certain customers by mail. For those customers who will receive the Notice by mail, the Company plans to furnish the Notice to these customers as a bill insert in conjunction with their billing statements in order to reduce the expenses associated with providing the Notice. DESC issues its bills to customers in cycles, and as a result, it can take more than thirty (30) days to complete all the billing cycles. Therefore, the Company respectfully requests that the Commission set a deadline that will allow DESC adequate time to prepare the Notice as a bill insert and allow all the billing cycles to be completed.

By copy of this letter, we are providing a copy of the application to counsel for the South Carolina Office of Regulatory Staff and the Department of Consumer Affairs and enclose a certificate of service to that effect. Thank you for your assistance in this matter and please do not hesitate to reach out should you have any questions or need more information.
